

PARTNERSHIP OPPORTUNITIES

Partner With Healthcare Coding Pro Solutions

A dependable coding and risk adjustment partner for clinics, practices, and healthcare organizations that need accurate documentation, fewer denials, and audit-ready records — without adding headcount.

Why Partner With Us

Healthcare Coding Pro Solutions combines a rare dual background — clinical training and certified coding expertise (CPC, CRC) — to deliver coding and auditing work that holds up under scrutiny. We work as an extension of your team, not a black-box vendor.

Ways to Work Together

Ongoing Coding Partner

Outsourced medical coding for your clinic on a recurring basis — daily, weekly, or by encounter volume. Consistent turnaround, consistent accuracy.

Chart Audit & Compliance Review

Periodic or one-time audits of existing coding to catch risk before a payer or RADV audit does.

Risk Adjustment / HCC Support

Dedicated HCC capture and validation support for practices managing Medicare Advantage or other risk-based contracts.

Training & Team Consulting

Workshops or ongoing mentorship for your internal coding staff — built around real chart examples, not generic slides.

What You Can Expect

- Certified expertise (CPC, CRC) backed by clinical (IMG) training — coding informed by real documentation context
- Direct communication — no account managers standing between you and the person doing the work

- Flexible engagement: project-based, part-time, or ongoing, scaled to your volume
- Familiarity with ICD-10-CM, CPT, HCC risk adjustment, RADV/IVA audit protocols, and payer documentation standards

Let's Talk

If your clinic, practice, or organization is looking for a coding partner who treats accuracy as non-negotiable, let's set up a short call to discuss your needs and how we can work together.
